#### IRISH PLAN OPENS THE WAY TO UNION **SAYS NORTHCLIFFE**

Declares Lloyd George's Scheme "Far From Perfect," but "Is a Beginning."

(By Cable to The Elening World,) LONDON, Dec. 31. BELIEVE that the scheme of Irish government which the Prime Minister has outlined is based on sound principles. A temporary division of Ireland, much as I dislike the idea, is probably the shortest path to eventual union. The Commonwealth of Australia grew from separate colonies. So did the Dominion of Canada and the Union of South Africa.

But the Government scheme is far from perfect. If Ireland is to be divided, the historic province of Ulster should be a unit. The link of the proposed Irish Council might, with advantage, be made stronger. Why should it not be an Irish Congress or House of Representatives?

The right of the Irish people to full fiscal autonomy should be definitely recognized. The scheme is, however, a beginning, and I hope the Government will have courage to go on. NORTHCLIFFE.
